Joined by his family in this musical merry-go-round are Muck Sticky's sister Cookie, and his mother whom everyone calls Momma. Muck's best buddy, Lil Hollywood is also part of the group. These colorful characters are here to bring joy and fun music to everyone! If you want to feel good and sing along to some catchy songs, you have found the right folks!

Born and raised in Memphis, TN, Muck Sticky comes from a long line of musicians. His great-grandparents founded one of the first gospel bluegrass quartets in 1929 known as The Wayfaring Strangers, and both of his grandfathers were well known musicians. One was Gene Lowery of The Dixie Four who often recorded at Sun Studios in Memphis, and sang with artists like Elvis Presley, Johnny Cash, Jerry Lee Lewis and Charlie Rich.

Muck began his own music career, playing violin at the young age of seven. Growing up in church he learned to sing hymns, and often joined in when his family would sing and play guitars & banjos. He was home-schooled until the age of twelve. The only group classes he took were P.E., Music & Drama. He nurtured his acting skills by starring in plays like Anne of Green Gables and A Christmas Carol. He also flourished in his studies since he was able to focus on them in the quiet environment of his home. In his teens Muck joined a few friends in creating a sketch comedy show for the local cable access channel called "Pointless", which included several music videos of parodies to popular rap songs. Those songs led him to realize he had a gift for creating humorous lyrics, as well as an ability to rap.

Between the age of sixteen & twenty three, Muck was employed in many different jobs including carpentry, restaurant chef, bricklaying, life guard, and ice cream truck driver. In the year 2000, with money he earned from his manual labor jobs, he bought an 8-track recorder and began creating what would eventually become his first album. In January of 2001 he gave his first live performance at a battle of the bands concert in Memphis, TN. Since Muck recorded all of his songs alone, he decided to attach wigs, sunglasses, and fake instruments to six foot tall floor lamps and call them his "band". To this day he believes they were vital in winning 2nd place that night. Nowadays Muck's performance range includes large scale theatrical productions, hip-hop dance shows, and acoustic stand-up comedy. Sometimes he brings the family, sometimes he appears solo. But he always brings the fun!
